Regulated by:	Autorité des Marchés Financiers and Autorité de Contrôle Prudentiel et de Résolution is responsible for supervising Natixis Structured Issuance in relation to this Key Information Document
Date of KID production:	5 March 2026

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type The product is in the form of a debt instrument, governed by English law.

Term The Maturity Date of the product is 22 March 2032 and it is recommended to hold the product until maturity, or until an Autocall Event occurs according to the conditions specified below.

Objectives To provide interest payment(s), in return for the risk of loss of capital. Amounts stated below are in respect of each Nominal Amount that you invest.

- **Autocall Event:** if the Worst Underlying Performance is greater than or equal to 0% on any Autocall Valuation Date, the product will be redeemed early and you will receive, in addition to the Nominal Amount, an amount equal to the Interest Amount corresponding to the Interest Amount per period on the immediately following Payment Date. No further payments of principal or interest will be made following such payment and early redemption.
- **Redemption amount on the Maturity Date:**
  - If the product is not redeemed early, then you will receive one of the following:
    - ◊ If the Worst Final Underlying Value is greater than or equal to 0%, you will receive in addition to the Nominal Amount the Interest Amount corresponding to the Interest Amount per period.
    - ◊ If the Worst Underlying Performance is below 0%, but greater than -35%, then you will receive only the nominal amount.
    - ◊ Otherwise, you will receive an amount equal to the Worst Final Underlying Value divided by the Strike Value multiplied by the Nominal Amount. **The amount paid in such case will be less than the Nominal Amount and you may lose some or all of your capital.**

Key Dates, Values and Definitions

All dates may be subject to adjustment for non-business days and market disruption events.

- **Underlying(s):** EURO STOXX 50® Index (ISIN: EU0009658145), Swiss Market Index (ISIN: CH0009980894) and FTSE 100 Index (ISIN: GB0001383545)
- **Underlying Performance:** for an Underlying, (a) the Closing Value of such Underlying on any given date divided by its Initial Value, minus (b) 100%, expressed as a percentage
- **Worst Underlying Performance:** the Underlying Performance of the Underlying having the lowest Underlying Performance
- **Worst Final Underlying Value:** the Closing Value of the Underlying having the lowest Underlying Performance on the Final Valuation Date
- **Initial Value:** for an Underlying, the Closing Value of the Underlying on the Initial Valuation Date
- **Closing Value:** for an Underlying, the Value of the Underlying at the close of trading on a given trading day
- **Strike Value:** 65% of the respective Initial Value
- **Nominal Amount:** GBP 1,000
- **Issue Price:** 100% of the Nominal Amount
- **Interest Amount per period:** 9.06%, 13.59%, 18.12%, 22.65%, 27.18%, 31.71%, 36.24%, 40.77%, 45.30%, 49.83% or 54.36%. Each Interest Amount is multiplied by the Nominal Amount
- **Dates:**
  - **Issue Date:** 20 March 2026
  - **Maturity Date:** 22 March 2032
  - **Payment Dates:** 5 business days after each Valuation Date (other than the Initial Valuation Date)
  - **Initial Valuation Date:** 13 March 2026
  - **Autocall Valuation Dates:** 15 March 2027 (included) and then every half-year on the same calendar day as the first reference date (or the next business day if it is not a business day), until the Final Valuation Date (excluded)
  - **Final Valuation Date:** 15 March 2032

Early redemption and adjustments

The terms of the product provide that if certain defined events, in addition to those described above, occur (principally but not exclusively in relation to any Underlying, or the Manufacturer of the product, which may include the discontinuation of the Manufacturer's ability to carry out the necessary hedging transactions), adjustments may be made to the terms of the product to account for the relevant event or the product may be early redeemed. The amount paid on any early redemption may be less than the amount originally invested.

Intended retail investor

This product is intended for retail investors who:

- have capital growth objective
- seeks to preserve capital or can bear losses limited to a level specified by the product and accept the credit risk of the Issuer and the Guarantor
- have a risk tolerance consistent with the summary risk indicator in this document
- have significant knowledge and experience in products such as the one described in this document
- have a minimum investment horizon consistent with the recommended holding period

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator

The risk indicator assumes you keep the product until 22 March 2032. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This takes into consideration two elements: 1) the market risk - that rates the potential losses from future performance at a medium level; and 2) the credit risk which estimates that poor market conditions are very unlikely to impact the capacity of the Issuer and the Guarantor to pay you. **You will receive payments in the product's currency, which may be different from your domestic currency. In this case, be aware of currency risk. The final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This product does not include any protection from future market performance so you could lose some or all of your investment. If the Issuer and the Guarantor are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		**Until the product is called or matures** This may be different in each scenario and is indicated in the table	
Example Investment:		**GBP 10,000**	
Scenarios		**If you exit after 1 year**	**If you exit at call or maturity**
Minimum	**There is no minimum guaranteed return. You could lose some or all of your investment.**		
Stress (product ends after 6 years)	**What you might get back after costs** Average return each year	**GBP 3,126** -68.74%	**GBP 3,703** -15.24%
Unfavourable (product ends after 1 year)	**What you might get back after costs** Average return each year		**GBP 10,906 (Ω)** 9.01% (Ω)
Moderate (product ends after 1 year)	**What you might get back after costs** Average return each year		**GBP 10,906 (Ω)** 9.01% (Ω)
Favourable (product ends after 3 years)	**What you might get back after costs** Average return each year	**GBP 11,772** 17.72%	**GBP 12,718 (Ω)** 8.34% (Ω)

(Ω) In this scenario the product was called early, at the time specified in the scenario. The results shown in the right most column represent the value and return at the early call, without reinvesting the payments.
The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset/s past performance over a period of up to 5 past years. The return is only guaranteed if you do not cash-in before 22 March 2032 as described in the risk section above. Unless expressly stated otherwise, the yields indicated are nominal rates which do not take into account the level of inflation. The actual return may be significantly lower in a high inflation environment.

WHAT HAPPENS IF NATIXIS IS UNABLE TO PAY OUT?

If the Issuer and the Guarantor become subject to resolution measures in the form of the bail-in tool ("bail-in"), your claim may be reduced to zero, converted into equity or its maturity may be postponed. This product is not protected by any investor compensation or guarantee scheme. If the Issuer and the Guarantor are unable to make a payment and/or are in default, you may lose some or all of your invested amount and any payment may be delayed.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.
We have assumed:

- GBP 10,000 is invested.
- A performance of the product that is consistent with each holding period shown.

Investment GBP 10,000	If the product is called at first possible date 22 March 2027	If the product reaches maturity
Total costs	GBP 450	GBP 450
Annual cost impact (*)	5.1% each year	0.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 8.32% before costs and 7.49% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.50% of the amount you pay in when entering this investment. These costs are already included in the price you pay.	GBP 450
Exit costs	0.50% of the amount you pay in when exiting this investment. We do not charge an exit fee for this product in case you exit at the Recommended Holding Period or in case of an early call.	GBP 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.00% of the value of your investment per year. This in an estimate based on actual costs over the last year.	GBP 0
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	GBP 0
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	GBP 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 6 years.

The recommended holding period corresponds with the maturity date of the product, as the product is designed to be held until then. Any recommendation regarding the holding period may be irrelevant for a speculative investor. For investors purchasing the product for hedging purposes the holding period depends on the holding period of the underlying risk.

Natixis may provide an indicative price of the product to holders who so request. The spread between the purchase price and the sale price will not be greater than 1%. If you want to sell this product before the Maturity Date, the price of the product will depend on market parameters at the time you wish to sell. In this case you may sustain a partial or total capital loss. More information available upon request.

HOW CAN I COMPLAIN?

For any claim relating to the service, you have received linked to this product please contact your usual adviser. In the event you should wish to complain at any time about this product, or the service you have received, you may do so by contacting your usual adviser or Natixis claims department at: natixis.groupebpce.com/fr/reclamations/ or in writing to NATIXIS Service de traitement des réclamations - CORPORATE AND INVESTMENT BANKING 7 promenade Germaine Sablon – 75013 Paris - France or by email to ld-m-premiumkids@natixis.com
